

WHAT ARE STRATEGIC PARTNERS

Grace Christian School is delighted to strategically partner with businesses and entities who support our statement of faith and belief that the Bible is the actual and authoritative Word of God. These entities and businesses can provide direct services to our school families that support and enhance their spiritual, physical, mental and emotional wellness.

Grace Christian School provides facilities for services provided by these entities, so that our families can have the convenience and opportunity to receive such services such as seminars and counseling services on our campus, close to their homes.

Services provided may have associated costs. Any such costs will be clearly stated by the strategic partner prior to providing services. Any such costs are privately and exclusively discussed between the strategic partner and the client. Many school wide seminars and experiences provided by our strategic partners have no direct associated cost.

We continually seek God's direction as to additional strategic partners that might be added to this list in the future. We welcome any feedback you might wish to provide regarding your experiences with our strategic partners. Please email us at schooladministration@gcsblacklick.org with any questions or comments you may have.
